Creating your society webpage

You should view your UUSU webpage as your society's shop window!

It's the first-place new students will go to when looking for information and as such should promote your group in a positive light- follow this guide to learn how to do just that.

We'd highly recommend having your page up-to-date by Welcome Week at the latest.

All you have to do is create your chosen video, upload it onto YouTube and save link here:
