

1. STANCE TITLE: PRO CHOICE CAMPUS

Ulster University Students' Union believes that all students have the right to make informed, autonomous decisions about their own bodies, health, and futures.

We recognise that students who experience pregnancy during their time at university may face complex, personal, and time-sensitive decisions. Access to clear, accurate, and non-judgemental information is essential to ensure that students are able to make choices that are right for them.

We affirm that no student should be left without support, information, or guidance when navigating a pregnancy. Barriers to accessing impartial information or services can have significant impacts on a student's wellbeing, education, and life outcomes.

As a Students' Union, we support a pro-choice campus where students are empowered to access comprehensive information on all available options, including continuing a pregnancy, adoption, and abortion, in a safe, confidential, and non-directive environment.

What we stand for:

- The right of students to access accurate, evidence-based, and impartial information about pregnancy options.
- A pro-choice approach that respects individual autonomy and personal decision-making.
- Non-judgemental support for all students, regardless of the decisions they make.
- Accessible and confidential signposting to appropriate medical and support services.
- A campus environment that prioritises student wellbeing, dignity, and informed choice.
- Clear support pathways for pregnant students who decide to keep their pregnancy and wish to continue their studies, both during pregnancy and post-partum.
- This stance reflects our commitment to student autonomy, wellbeing, and the provision of a supportive and inclusive university environment where all students can make informed decisions about their lives and futures.
