Policy name: Councillor Visibility  Date Presented: 26/11/19  
Lapse date: December 2021

Student Council notes:

Student Councillors are the voice of the students within Ulster University and have the power to create changes that affect students across Ulster University. However:

The UUSU website does not identify some of our elected Councillors.

Student Council believes:

As the Student Officers are identifiable by their branded clothing, and Councillors as a collective should feel as identifiable as part of the organisation, given our important elected roles.

Student Councillors are currently identifiable by a lanyard, which is not applicable for all councillors to use for example bioscience, nursing etc due to health and safety.

Student Council resolves:

As part of the ongoing development of the Student Councillor role, and in order to enhance the visibility and presence of Student Councillors on campus, Student Executive and Student Councillor resolve that:

- Student Executive explore provided with branded clothing or pin badges for Student Councillors, as part of Student Council induction.

- UUSU promote and communicate the work of Student Councillor achievements, initiatives and updates across our social media.
